VOLUME 2

Pages.	1921
1 to 28	January
29 to 54	February
55 to 80	March
81 to 106	April
107 to 132	May
133 to 158	June
159 to 182	July
183 to 208	August
209 to 234	September
235 to 258	October
259 to 282	November
283 to 306	December

ARTICLES

Air in the Glass Industry, Importance of *244
Air, Oil and Water Separator, An..... *9
Alabaster Glass, Milk or 84
Alkalinity in Glass Containers, Free 235
Aluminum on the Properties of Glass, Influence of 216
American Ceramic Society, Annual Meeting, 1921 .....20, 49, 60
Annealing Furnace Progress, Electric ... 251
Annealing Lehr, Electrically Heated Glass *107
Annealing Temperature of Glass, Effect of Aluminum on the *219
Annealing Temperature of Glass, Thermal Expansion and *162
Annealing Temperature of Glass, Twyman's Apparatus for Determining the *75
Automatic Vial Necking and Bottoming Machine *266

Batch Composition, Table of Factors for the Calculation of the Glass from the 160
Batch, Loss in Weight During Melting.. 269
Beads, Venetian Glass 137
Bottle Manufacture, Automatic 55
Bottles, Comparative Strength of Prescription 187
Bottles During Pasteurization and Sterilization, The Causes of Loss in ... 171
Bottles, Glass Composition for Making.. 168
Bottles, Important Trade Mark Decision Affecting 148
Bottles, Manufacture of Glass Milk 259
Brashear Process of Silvering 291
British Scientific Glass Industry, The 151
Burnt Lime, and Slaked Lime. Relative Advantages and Disadvantages of Limestone, ... 237

Calculations of Glass Technology, Some.. 159
Canada in 1918. The Glass Industry in... 247
Chemist, Training of the Glassworks 63
Chimney Losses, Saving Fuel by Controlling *37
Common Defects Occurring in Glass, Some 1
Compressed Air in the Glass Industry..... 168
Containers, Free Alkalinity in Glass 235
Cullet Cleaning Screen, A *44

Decolorizing Glass 271
Designs for Illuminating Glassware *12
Devitrification and Revitrification of Glass *29

Electrical Properties of Glass 221
Electrical Resistance of Glass with Temperature, Variation of 262
Electric Annealing Furnace Progress 251
Electric Heating in Ceramics *36
Electric Power in Glass Factories 141
Enamel or Glazing Composition 193
Expansion and Annealing Temperature of Glass, Thermal 162

Factors for the Calculation of the Batch and of the Glass, Table of 160
Factors Governing Quality and Cost of Heat-Treated Products *189
Factory, Silent Spokesman in the *8
Fourcault System, Drawing of Sheet Glass *190
French Glass Industry, Standardization in the 161
Frink, Robert L., and His Work *96
Furnace, Effecting Change of Composition in Glass Tank 66
Furnace Progress, Electric Annealing .. 251
Furnaces and Tanks in Operation and Idle in 1919 300

Gas Producers, Fuel Saving in Modern *287
Gas Producer, The Modern 86
Gauge Glasses, Steam *240
Gauge Tube Situation, The Steam *183
German Glass Industry, Further News of the 15
German Glass Industry, Situation of the 45
German Glass Manufacturers, Central Bureau for Improving Fuel Conditions Established by the Association of 116
German Glass Works' Earnings 205
Glass Analysis, Calculation of the Batch from the 160
Glass and Glassware Production in 1919 298
Glass Beads, Venetian 127
Glass-Blower's Art, Marvels of the..... *68
Glassblowers, Training 279
Glass Caskets, Commercial Production of *276
Glass, Certain Surface Effects in *40
Glass, Colored 69
Glass Composition in Tank Furnace, Effecting Change of 66
Glass Compositions, German Patents on, 117-161
Glass Container Association Urges Constructive Co-operation 18
Glass Containers, Free Alkalinity in 235
Glass, Development of Various Types of 263
Glass, Electrical Properties of 221
Glasses, Composition of Opaque 81
Glasses, Steam Gauge *240
Glass Industry, Development of the 92
Glass, Influence of Aluminum on the Properties of 216
Glass Manufacture, Progress Made in Plate *3
Glass Melting in Shallow Pots *32
Glass Milk Bottles, Manufacture of 259
Glass, Notes on 113
Glass, Novel Method of Handling Molten 142
Glass Prices Investigated, British Glass.. 48
Glass Resistant to Sudden Changes of Temperature 34
Glass, Some Common Defects Occurring in 1
Glass Technology, Some Calculations of 159
Glass Tubing, Machine Drawing of.....*110-138
Glassware, Illuminating, Designs for..... *12
Glassware, Street Lighting *213
Glass Works Chemist, Training of the 63, 278
Glazing Compositions, Enamel or 193
Gypsum, Properties and Uses of 44

Handling Molten Glass, Novel Method of *142
Haugen Bill, Glass Container Industry Menaced by 48

Illuminating Glassware, Designs for *12
Iridescent Glass, Manufacture of 85

Lauscha Hums Again with Glassmaking Joy 170
Lead Glasses, Effect of Joint Presence of Sodium and Potassium on the Solubility of 263
Lehr, Electrically Heated Glass Annealing *107
Lenses, Processes in the Manufacture of *133, 199
Lighting Glassware, Street *213
Limestone, Burnt Lime and Slaked Lime, Relative Advantages and Disadvantages of 237

Machine Drawing of Glass Tubing .. *110-138
Magnesia-Lime Glasses, New Patent Issued on 88
Manganese Ore in Glass Making 14
Manufacture of Building Glass, Modern Development in *194
Manufacture of Glass Milk Bottles 259
Melting, in Shallow Pots, Glass..... *32
Melting, Loss in Weight of Batch During 269
Milk or Alabaster Glass 84
Mold Industry, Evolution of the 35
Mother-of-Pearl Glass, Manufacture of .. 7

Nomenclature of Glasses 91

Opaque Glasses, Composition of 81

Packages, Progress Toward Perfect *268
Patents on Glass Composition, German, 117, 161
Plate Glass Manufacture, Progress Made in *3
Potassium and Sodium, Effect on the Solubility of Lead Glasses 263
Producer Gas Plant Design *283
Pyrometry in the Glass Industry *114
Pyrometric Practice in Glass Manufacture *166

Rochelle Salts Process of Silvering 291

Separator, An Air, Oil and Water..... *9
Sheet Glass, The Drawing of (Fourcault System) *190
Silvering, Brashear Process of 291
Silvering, Rochelle Salts Process of 291
Silvering, Some Workshop Notes on 291
Sodium and Potassium, Effect on the Solubility of Lead Glasses 263
Standardization in the French Glass Industry 161
Standardize Building Glass, Move to 278
Strength of Prescription Bottles, Comparative 187

Tank Furnace, Effecting Change of Glass Composition in 66
Tanks and Furnaces in Operation and Idle in 1919 300
Technology, Some Calculations of Glass.. 159
Thatcher Manufacturing Company Denies It Is a Monopoly 152
Thermal Expansion and Annealing Temperature of Glass 162
Trade Mark Decision Affecting Bottles, Important 148
Tube Situation, The Steam Gauge *183
Tubing, Machine Drawing of Glass *110, 138

Vial Necking and Bottoming Machines, Automatic *266

Waste in the Glass Industry 254
Water Problems in Glass Manufacture ... 209
Weight of Batch During Melting, Loss in 269
Window Glass, Mechanical Production of . 65

MINOR MISCELLANEOUS ARTICLES, ABSTRACTS AND DATA

Barium Glass, Composition of 65
Basalt as an Electrical Insulator 193
Black Glass 6
Bottle, A New Vacuum 220
Bottles, Indelible Labels on 72
British Glass Prices Investigated 48
Bureau of Standards Notes 119
Bureau of Standards, The *167

Canada, Soda Ash Made in 76
Colored Designs on Glass, Warga Method 124
Composition of Barium Glass 65
Construction and use of Pot Arches, Some Considerations in the 64
Copper-Plating Glass 265

Density of Glass 239

Engineering Success, Qualifications for ... 31
Expansion of Glasses 169

Frosted Glass 121
Fuel Control in German Glass Industry .. 11
Furnaces, Design and Operation of Glass House 63

Gases in Glass, Dissolved 63
Gauge Glass, Japanese 249
Glass Annealing Lehr, Electrically Heated 64
Glass, Black 6
Glass Bricks in France, Manufacture and Use of 223
Glass by Pressure, Eliminating Bubbles from 251
Glass Cutters, Helpful Suggestions for ... 215
Glass Cutting, Diamond for 248
Glass Cutting, Notes on 90
Glass Fountain for India, Beautiful 119
Glass-Grinding Fluid 93
Glass House Furnaces, Design and Operation of 63
Glass Insulators for High Voltages 96
Glass Insulators, Manufacture of 193
Glass Molds, Alloy for 87
Glass Research Fellowship 119
Glass Sands, Some Chemical and Physical Data on 64
Glassware Manufacture, Illuminating 65
Grinding Fluid, Glass 93

Heating Values, Computing 39

Illuminating Glassware Manufacture 65

Japanese Gauge Glass 249

Labels on Bottles, Indelible 72
Lehr, Electrically Heated Glass Annealing 64
Lehrs, Operation of 62
Libbey-Owens Process, Belgians Organize for 179

Mineral, A New (Camsellite) 239
Molds, Alloy for Glass 87

Patents in Jeopardy, Foreign 44
Polish Glass Industry 52
Porcelain That Can Be Worked Like Glass 96
Pot Arches, Some Considerations in the Construction and Use of 64

Research Fellowship, Glass 119
Ripe Olives to be Brought Back into Favor 256

Sands, Some Cehmical and Physical Data on Glass 64
Soda Ash Made in Canada 76
Soda Industry, Japanese 119
Standards, Bureau of, Notes 119

Tableware, Proposed Specifications for .. 220
Tableware, Wax Coating for 6
Temperature by Colors, Approximate ... 116
Thermal Study of Some Members of System, PbO-SiO_2 64
Trade Conditions in Europe 50

Vacuum Bottle, A New 220

Wooden Posts for Factory Fences 246

Zirconium 262

Index to Volume 2

Processes in the Manufacture of Lenses 199

THE LABORATORY—PRINCIPAL TITLES

Aluminum Compounds:
Analysis of China Clay, Feldspar and Kaolin 200
Clarifiers:
Arsenic; Soda Niter; Saltpeter 249
Colored Glasses:
Chemicals Used to Produce Them ... 294
Decolorizers:
Manganese Dioxide or Pyrolusite; Nickel Oxide; Cobalt Oxide; Selenium 270
Properties, Technology and Valuation of Boron Compounds:
Rapid Analysis of Borax and Boric Acid 169
Sampling 13
Technical Analysis of Sand 13
Technical Analysis of Soda Ash 41
Technical Valuation of Limestone 93
Technology and Analysis of Potash ... 118
Technology and Analysis of Salt Cake .. 72
Technical Valuation of Lead, Zinc and Barium Compounds:
Rapid Analysis of Red Lead; Rapid Analysis of Zinc Oxide; Rapid Analysis of Barium Carbonate..... 143
Valuation of Phosphates and Fluorides 225

THE LABORATORY—SUB-TITLES

Arsenic, Technical Valuation of Commercial 249
Barium Carbonate, Rapid Analysis of 143
Barium Compounds, Technical Valuation of Lead, Zinc and..... 143
Borax and Boric Acid, Rapid Analysis of 169
Boric Acid, Rapid Analysis of Borax and 169
Boron Compounds, Properties, Technology and Valuation of..... 169
China Clay, Feldspar and Kaolin, Analysis of 200
Cobalt Oxide 271
Feldspar and Kaolin, Analysis of China Clay 200
Fluorides, Valuation of Phosphates and 225
Glasses, Colored 294
Kaolin, Analysis of China Clay, Feldspar and 200
Lead, Zinc and Barium Compounds, Technical Valuation of..... 93
Limestone, Technical Valuation of ... 93
Manganese Dioxide or Pyrolusite 270
Nickel Oxide 270
Nitrates, Valuation of 249
Phosphates and Fluorides, Valuation of 225
Potash, Technology and Analysis of.... 118
Pyrolusite, Analysis of Manganese Dioxide or 270
Red Lead, Rapid Analysis of 143
Salt Cake, Technology and Analysis of 72
Saltpeter 249
Sand, Technical Analysis of 13
Selenium 271
Soda Ash, Technical Analysis of 41
Soda Niter 249
Zinc, and Barium Compounds, Technical Valuation of Lead..... 143
Zinc Oxide, Rapid Analysis of 143

TECHNICAL CONSULTATION SERVICE

Adhesive Protective Mixture for Sand Blast Etching 95
Arsenic as a Fining Agent 250
Can a Technical Consultation Service in The Glass Industry Be of Value.. 17
Cause of Greenish Color in Glass 173
Elements Affecting Conductivity of Glass 225
Formula for Electric Insulation Batch .. 121
Glass Cooling Over Week-ends, Remedy for 17
Lepidolite in Window Glass 43
Potassium Phosphate and Sodium Carbonate in Raw Materials 17
Plate Glass, Producing High Lustre on 121
Preparing Samples for Annealing Tests .. 297
Producing High Lustre on Plate Glass ... 121
Removing Solidified Glass from Tank 71
What Is Meant by Neutral Soda 95
White Spots in Volumetric Flasks 71

NEW BOOKS

American Chemistry 198

SCIENTIFIC, TECHNICAL AND INDUSTRIAL PAPERS

Silica and the Silicates..... 273
Technical Methods of Analysis..... 251
Dissolved Gases in Glass..... 90
Economic Minerals of Canada..... 250
Gypsum Deposits in the United States.... 296
National Electric Safety Code..... 121
National Safety Code for the Protection of the Heads and Eyes of Industrial Workers 121
Pyrometric Practice..... 173
Safety Code for Compressed Air Machinery 255
Standardization of Petroleum Specifications 145

PATENTS

Abrasive for Grinding and Smoothing Glass, 1,387,649. William L. Kann..... 253
Apparatus for Drawing Glass Cylinders, 1,361,635. Arthur E. Spinasse..... *21
Apparatus for Supporting Glass Cylinders. 1,361,855. Herman S. Heichert.... *22
Beveling Machine, 1,370,991. Perry Okey.. *99
Bores in Glass, Production of. 1,382,650. Joseph Kent *202
Bottle Case, Knockdown, 1,364,968. Andrew L. Wagstaff *73
Bottles, Glass, Machine for Making, 1,385,428. Charles F. Cox..... *226
Bottle Transferring Apparatus, 1,358,913. Glenn Young *21
Casting Plate Glass, Machine for, 1,363,450. Harry O. Bishing..... *73
Clay Pots, Process for Making, 1,364,875. Clarence E. Fulton..... *45
Crucible Smelting Furnace, 1,365,204. Chas. M. Stein..... *97
Cutting Off Molten Glass, Mechanism for, 1,338,654. Frank H. Lobb..... *252
Cutting Sheet Glass, Method of, and apparatus for, 1,337,320. Joseph P. Crowley *147
Decorating or Annealing Oven, 1,389,583. Chauncey E. Frazier..... *275
Drawing Glass Cylinders, Apparatus for, 1,386,441. Arthur E. Spinasse..... *252
Drawing Glass, Method of, 1,396,339. William L. Monro..... *302
Drawing Machine. Sheet Glass, 1,393,081. Robert P. Callard and Clarence A. Rhonemus *301

Drawing Sheet Glass, Apparatus for, 1,386,724. Thomas S. Owens..... *274
Drawing Sheet Glass, Method and Apparatus for, 1,394,283. Joseph P. Crowley *302
Drawing Sheet Glass, Process and Apparatus for, 1,394,809. Irving W. Colburn *302
Drawing Sheet Glass, Process of, 1,376,975. Harry G. Slingluff..... *175

Edge Beveling Machine, 1,368,263. Albert F. Johnson *175
Edge Grinding and Polishing Machine, 1,380,133. Christopher Brown..... 201

Frosted Glass and Process for Making the Same, 1,386,880. Charles F. Lorenz. *274
Furnace, Flattening Oven, 1,378,657 Henry F. Clark *174
Furnace, Glass Tank, 1,390,614. Joseph E. Hurley *275
Furnaces, Melting, Front Discharge Chamber of, 1,361,754. Paul Dhé..... *123

Glass and Its Manufacture, 1,362,917. Louis E. Barton 22
Glass and Other Plane Surface Articles, Apparatus for Lifting and Transporting, 1,373,997. Georges H. L. Debaecker *146
Glass Annealing Lehr, 1,361,604. Edwin E. Milner *21
Glass, Apparatus for Manipulating Hot, 1,390,448. Richard La France..... *274
Glass Articles, Manufacture of, 1,393,118. Robert Frederick Hall..... *302
Glass Articles, Method and Apparatus for Making, 1,382,994. Clyde R. Lott... *226
Glass Casket, 1,365,633. Hiram Tyree.... 73
Glass Collar Buttons, Making, 1,372,294. Michael Karabin *123
Glass Conveying Apparatus, 1,379,593. Karl E. Peiler..... 174
Glass Cutter, 1,375,958. Olaf B. Gerdin.. 147
Glass Cutting Apparatus, 1,385,732. William Taylor 226
Glass Delivering Apparatus, 1,373,202. Karl E. Peiler *147
Glass, Device for Obtaining Quantities of Molten, 1,378,460. Ernest Hopkins.. 175
Glass Discharging Mechanism, 1,391,957. Edward S. Hutton..... *301
Glass Drawing Apparatus, 1,372,044. John R. Scohy..... *123
Glass Drawing Apparatus, 1,375,818. John J. Bloxsom and Elmer E. Myers.... *175
Glass Drawing Process, 1,364,895. Harry G. Slingluff *45
Glass Forming Machine, 1,369,679. Clyde R. Lott *97
Glass Gathering and Shaping Machine, 1,364,514. Michael J. Owens..... *46
Glass Grinding Machine, 1,372,553. Edward A. Ryon..... *124
Glass Grinding Machine, 1,373,836. Edward A. Ryon..... *124
Glass Handling Apparatus, 1,362,756. Theodore C. Steimer..... *22
Glass, Method and Apparatus for the Manufacture of, 1,371,084. Alexander Ferguson *98
Glass, Method of Finishing, 1,373,532. Lee Showers 122
Glass Molding, 1,368,958. Frederic W. Miller *74
Glass Pot Furnace, 1,369,453. Maurice Mathy *97
Glass, Quartz, Process of Producing Articles of, 1,368,990. John Scharl..... 97
Glass Roll, 1,394,684. Kenji Matsuo..... 301
Glass Roller, Water cooled, 1,392,626. Walter Cox *301
Glass Severing, 1,379,594. Karl E. Peiler *174
Glass Stirring Machine, 1,361,853. Charles R. Hazel *22
Glass Tank, 1,375,941. Arthur E. Spinasse. *174
Glassware, Apparatus for the Manufacture of, 1,384,967. William H. McSwain. *227
Glassware, Hollow, Machine for Making, 1,394,092. Edward S. Hutton..... *302
Glassware Machine, 1,386,240. Edma H. Curtis, Jr. *252
Glassware, Method of and Apparatus for Manufacturing, 1,390,626. Erick P. Leindahl. *301
Glass Working Machine, 1,375,336. Frank L. O. Wadsworth..... *123
Glazing System, 1,377,673. Alfred Ernest Drown 147
Grinding and Polishing Plate Glass, Apparatus for, 1,384,278. Frank Edwin Slocombe *226
Grinding Machine for Beveling the Edges of Eyeglass Lenses and Other Pieces, 1,365,448. Henry J. Birchall..... *46
Grinding or Polishing Plate Glass, Apparatus for, 1,370,246. Frederic Barnes Waldron *98
Gripping and Cutting Sheet Glass, Method of, 1,367,858. Hudson S. Campbell.. *73

Lehr Construction, Muffle, 1,385,868. Paul L. Geer. *226
Lehr Feeder, 1,363,609. Harry W. McNaught *46
Lens, 1,363,805. Abraham L. Morrison.... 74
Lens, 1,364,900. Harry B. Styll..... 74
Lens, Bifocal, and Process for Making the Same, 1,376,673. Lucian W. Bugbee. 146
Lens Cutting Machine, 1,388,774. Walter W. Slade..... *301
Lens Drill, 1,370,035. Jeremiah Moffitt.... *99
Lens Edge Grinding Machine, 1,367,933. Louis Wilhelm..... *74
Lens Edge Grinding Machine, 1,378,831. John F. Ashton 201
Lens Grinding Machine, 1,381,245. Leon G. Simpson *201
Lens Grinding Machine, 1,387,232. Lucian W. Bugbee 252
Lens Polishing Machine, 1,366,159. Lucian W. Bugbee *73

Machine for Burning or Glazing the Edges and Sides of Glassware, 1,364,939. A. Knight..... *45
Machine for Grinding Glassware, 1,364,940. A. B. Knight..... *45
Machine for the Automatic and Continuous Manufacture of Glass Bottles, 1,373,272. George Orlando Tague..... *146
Method of Producing Colored Designs on Glass. British Patent, 140,304. K. Warga 124

Optical Pyrometry, 1,376,606. Francis E. Bash 146
Optical System for Projectors, 1,363,566. Wm. Churchill. *74
Ornamenting Sheet Glass, Method of, 1,375,251. ..... *122

Plate Glass Grinding Tables, Mechanism for Shifting, 1,385,852. Frank E. Troutman *252
Plate Glass, Method and Apparatus for Making, 1,381,591. Wm. H. Powell.. *201
Polishing Multifocal Lenses, Means for, 1,372,747. Charles Green..... *146
Process of Making or Treating Producer Gas 1,361,137. William B. Chapman. *21

Quartz Glass, Process for Making Articles of, 1,375,657. John Scharl..... *123

Refractory Insulation. 1,374,538. Paul G. Willetts 122
Ring, Double, for Glass Factories, 1,367,027. Joseph Durieux *74
Rolling Glass, Machinery for, 1,382,608. Arno Shuman *201
Rolling Plate Glass, Machine for, 1,375,014. Harry A. Reynolds..... *122
Removing Striæ from Melted Glass, Method of and Apparatus for, 1,370,673. Samuel R. Scholes..... *99

Scleroscope for Testing the Hardness or Strain in Glass Due to Insufficient Annealing, 1,370,738, Claude M. Garland *98
Severing Glass, Device for, 1,373,728. Harry F. Hitner..... *124
Severing Sheet Glass, Process and Apparatus for, 1,373,533. Harry G. Slingluff *124
Sheet Glass Drawing Apparatus, 1,362,378. James Whitemore *46
Sheet Glass Drawing Machine, 1,391,405. Clarence R. Rhonemus..... *274

Turning Over Sheets of Glass to Facilitate Working on Both Sides of the Sheets. Apparatus for, 1,371,868. George Henri Leon *99

Vise for Holding Glasses, 1,369,454. Maurice Mathy *98
Window Glass, Manufacture of, 1,356,739. Clyde S. Robb..... *49

GLASS FACTORY EQUIPMENT

Batch Mixer, New Traveling..... *203
Bergman Valve *253
Boiler Compounds, Use of..... *303
Bottle Molds, Cutting Automatically..... *23
Burner, Hess 24

Chimneys, Furnace and Power Plant..... 150

Duplex Mono, The..... *101

Electrobestos *150

Feldspar and Glass Sand Plants, New.... *303
Fire Polishing Machine, New..... *100
Furnace, A New Re-Annealing..... *77
Furnaces, Water Cooling Tanks and..... 125

Gas Machine, The Tirrill..... *47
Gas Producers Conserve Fuel..... 25
Glass Blowing Machine, A New Automatic *178
Glass, Chief Ingredients of..... *47
Glass, Spraying Metal Films on..... *202

Hagan Oil Burner..... *149

Lehr Temperature Control System, Tank and 176
Lehr Installation, Recent Simplex..... *24

Molds, Bottle, Cutting Automatically..... *23

Oil Burner, Hagan..... *149

Paste, New Anti-Sticking..... 175
Pyrometer, New Brown Cold Junction Compensated *228
Pyrometer, Thwing Radiation..... *229

Tank and Lehr Temperature Control System *176
Tanks and Furnaces, Water-Cooling..... 125
Temperature Control System, Tank and Lehr *176
Thermometer, New Recording..... *101

Valve, Bergman *253

Water and Oil Strainer *24
Water Cooling Tanks and Furnaces..... 125

Zirconium in White Glass..... 304

GLASS FACTORY EQUIPMENT—MANUFACTURERS AND DEALERS

Amsler-Morton Company, Pittsburgh, Pa. Furnace and Power Plant Chimneys 150
Ansler-Morton Company, Pittsburgh, Pa. New Fire Polishing Machine *100

Blaw-Knox Company, Pittsburgh, Pa. Water Cooling Tanks and Furnaces 125
Brown Instrument Company, Philadelphia, Pa. New Brown Cold Junction Compensated Pyrometer *228
Brown Instrument Company, Philadelphia, Pa. New Recording Thermometer *101

Griscom-Russell Co., New York. A Water and Oil Strainer *24

Hagan Company, George J., Pittsburgh, Pa. Hagan Oil Burner *149

Johns-Manville, Inc., New York. Electrobestos *150

Keithe, Blackman & Co., Ltd., New Re-Annealing Furnace *77
Keller Mechanical Engraving Company, Brooklyn, N. Y. Cutting Bottle Molds Automatically *23

McCamic-Batchell-Bergman Company, Toledo, Ohio. Bergman Valve..... *253
Metals Coating Company of America, Philadelphia, Pa. Spraying Metal Films on Glass *202
Mono Corporation of America, New York. The Duplex Mono..... *101

O'Neill Machine Company, The. Toledo, Ohio. A New Automatic Glass Blowing Machine *178

Pennsylvania Glass Sand Company, Lewiston, Pa. New Feldspar and Glass Sand Plants *303

Scaife & Sons Company, Wm. B., Pittsburgh, Pa. Use of Boiler Compounds 303
Sharp-Schurtz Company, Lancaster, Ohio. New Anti-Sticking Paste 175
Simplex Engineering Company, Washington, Pa. A Recent Simplex Lehr Installation *24
Stephens-Adamson Manufacturing Company, Aurora, Ill. New Traveling Batch Mixer *203

Thomas & Company, Arthur H. Twyman's Apparatus for Determining the Annealing Temperature of Glass *75
Thwing Instrument Company, Philadelphia, Pa. Thwing Radiation Pyrometer *229
Tirrill Gas Machine Lighting Company, New York. Tirrill Gas Machine.. *47

Wellman-Seaver-Morgan Company, Cleveland, Ohio. Gas Producers Conserve Fuel 25
Wilson-Maculen Company, New York. Tank and Lehr Temperature Control System *176

STATISTICS AND DATA OF THE GLASS INDUSTRY

Belgium's Glass Production in 1920 246

Census of the Glass Industry, 1919. Preliminary Summary 129
Census Summary of Chemical Industries 1919 207

Glass and Glassware in 1919. First Detailed Census Production Statistics 298

Fluorspar Industry in 1919-1920 59
Furnaces and Tanks in Operation and Idle in 1919 300

Glass and Glassware During 1920, Imports of 130
Glass and Glassware, Monthly Summary of United States Imports and Exports, 28, 54, 80, 106, 132, 158, 182, 208, 258, 306
Glass Sand in 1919, Production of 90

Lime, Consumption of 265
Lime in Glass Works, Consumption of 165

News of the Trade, 25, 51, 78, 103, 128, 155, 180, 206, 231, 257, 280, 305
